

GSI Caravan

Project Title: Conditions of Sovereignty

Principal Investigator: Kōichirō Kokubun

Research Plan for the Academic Year 2022

Members of the research team include: Kōichirō Kokubun as the principal investigator representative (Philosophy/Theories of Democracy), Qin Wang (Philosophy/Critical Theory/Chinese Literature), Cheung Chin-yuen (Japanese Philosophy/East Asian Philosophy/Inter-Cultural Philosophy), Tsuyoshi Ishii (Chinese Philosophy), and Takahiro Nakajima (Chinese Philosophy).

It's been two years since the research team was organized.

Because of the pandemic, there is no schedule for oversea studies again this year.

On the other hand, several seminars will be held online.

Although the date hasn't been decided, we will hold a seminar by Prof. Dr. Markus Gabriel (University of Bonn).

Add to this, a workshop about a book related to the research project will be scheduled.

It is quite difficult to publish some books in English without travelling abroad, so we will discuss with the team about the project and try to reach common ground. Therefore, we reduce the budget.
